

*As provided for in 18 AAC 50.077(c) ADEC has reviewed & issued determinations/decisions for the certification test reports of the devices listed below. For dispute of a decision by the department (as identified in 18 AAC 50.077(o)), review may be requested under 18 AAC 15.185 (informal review) **within 20 days** of the final determination/disapproval date or 18 AAC 15.195 – 18 AAC 15.340 (formal administrative appeal procedures) **within 30 days** of the final determination/disapproval date.*

**Basis Legend (for detailed explanations see ADEC Regulatory Basis Document)**

|                                                     |                                                               |
|-----------------------------------------------------|---------------------------------------------------------------|
| ESA – weighted average emissions exceed 2.0 g/hr    | M1 – lab did not collect data on mandatory reporting elements |
| ES1 – one-hour filter values exceed 6.0 g/hr        | NTR – no test report found                                    |
| MD – mandatory test elements/data were not reported | IDU – report data reported inaccurately                       |
| IR – incomplete Report                              | NR – non-representative report                                |
