

### List of Devices with No Determination

As provided for in 18 AAC 50.077, ADEC approves wood-fired heating devices for sale within the Fairbanks Nonattainment area that are EPA certified and where the department has reviewed and accepted the underlying certification test results. ADEC has undertaken review of all devices on EPA's certified list as of May 15, 2020 but moving forward will perform reviews of newly certified devices upon request. The following devices have been EPA approved and appear in the EPA database, however a request for review must be received by ADEC before a review of the certification report will commence.

Only after the review and any potential deficiencies identified have been corrected and approved will a device be placed on the Approved Device Lists.

To request that ADEC begin the review process refer to bottom of the page for instructions. For additional information regarding the ADEC review process please visit: <https://dec.alaska.gov/air/burnwise/manufacturers-vendors/>

This list will be updated at least monthly. If your device is not listed, and is EPA certified, please contact [Steven.hoke@alaska.gov](mailto:Steven.hoke@alaska.gov).

**The above listed devices will not be reviewed without a formal request. In order to get a specific device reviewed follow the steps outlined below.**

1. Send an email to [steven.hoke@alaska.gov](mailto:steven.hoke@alaska.gov)
2. Request that device be reviewed for inclusion in the Approved Device List
3. Identify device name.
4. Identify report number.
5. Device must be on EPA certified list.
6. Provide publicly available link of report for device.
7. The review process will take several weeks depending on the number of reviews currently being conducted.
8. Once review is completed, a copy of the summary report will be sent to Manufacturer for review. Report will be posted on the Manufacturer page after approximately 45 days unless errors or corrections are identified. Once complete, the summary report will be posted even if final determination is pending – minor or major, or disapproved. If final determination is pending, major or minor, the device will remain on this Pending Review with the Pending in the status column and will not be placed on the Approved List, until Pending items are addressed.
9. Until a final determination of Approved is made, the status column on the Pending Review List will be updated and used to indicate where in the review process the device's certification test is at.
  - a. No Request Received
  - b. Request Received [Date]
  - c. Initial Review Completed
  - d. Summary Sheet Sent to Manufacturer [Date]
  - e. Pending [Minor or Major] Deficiency Correction

Note: If final determination is Approved, the device will be removed completely from this list and placed on the Approved List.
